HISTORY OF HINESBURG, VERMONT

The Charter for the Township of Hinesburg was granted by Gov. Benning Wentworth, of New Hampshire, June 24, 1762. The Charter referred to the township as a "New Plantation." It was granted upon conditions of which the following are a part: As soon as there shall be fifty families settled they shall be allowed to hold two Fairs; and a market may be kept one or more days each week, as the inhabitants shall decide. Every grantee shall cultivate and plant five acres of land within five years for every fifty acres owned. All pine trees fit for masting the English Royal Navy shall be carefully preserved for that purpose. One ear of Indian corn to be paid annually on December 25. Every owner shall pay yearly one shilling proclamation money for every hundred acres he owns. The clerk of the town shall be paid four shillings York money for recording the Charter, and shall be paid 16 pence York money for recording each deed. A tax of forty shillings York money was levied on each right.

It was voted to give Ethan Allen, Seth Warner, Remember Baker and Gideon Warner 400 acres of land for defending the land from unlawful claimants, and another 400 acres for building a road through the town.

There were 64 grantees, mostly from new Guilford, Conn. None of the grantees, excepting Andrew Burritt, settled in the town. His grant was near where some of his descendants still reside. All other rights were sold, one for eight shillings.

A warning was issued by Ira Allen at Sunderland, Vermont for a meeting to be held at the house of Abner Chaffee in Hinesburg in June, 1785. (Chaffee lived near the present home of Clark Emmons.)

The first Town Meeting was "warned and holden" at the house of Eliphaz Steele in March, 1787. (He lived on the Monkton road near the present home of Clarence Carpenter.) A moderator, town clerk, constable and three selectmen were elected.

The only settlers known to have settled in the township prior to the Revolutionary War were Isaac Lawrence and Abner Chaffee. They left town during the war and returned afterward. Lawrence lived near the present home of Robert Ballard. In 1793 he sold out to Epaphras Hull, who for a time kept a tavern at this location. His grave is marked by the roadside a short distance north of the "High Rock" on the Burlington road.

Elijah Peck, in 1788, built and operated a tavern on the present site of the Lantman store. It was the first two-story house in the town. The present Lantman store was built by Royal W. Post in 1860.

The first industry on Pond Brook, a saw mill, was built in 1791. There have been six mill ponds on the brook. The only industry on the brook now is the Iroquois Mfg. Co., operated by Leland H. Lyman, whose grandfather had a carding mill nearby in the 1870's. Over the years there have been upwards of forty industries on the brook, including saw, carding, grist, woolen, excelsior and cider mills; and sleigh, triphammer, wagon, pail, cheese box, buttermilk tub, sap bucket, wheelwright, wheel turning and chair shops; also two asheries, a distillery, foundry, starch factory and a creamery.

Jedediah Boynton, in 1825, built the house now occupied by Howard Russell. He also built a store located where Lynn Lantman now lives. He and Mitchel Hinsdale, in 1820, built the canal which runs through the village. He gave the town land for the Academy (library site), and a cemetery directly south; also an acre of land where the Baptist (United) Church was built in 1826.

In 1882 the population of the town was 1330. There were thirteen schools with three male and 16 female teachers. Their total salary was \$1840. The total cost of the schools for the year was \$2070.

In 1850 there were 124 farmers in the town, having 400 horses, 1068 milch cows, 168 oxen and 6593 sheep. Production of wool was 20895 pounds, butter, 7458 pounds, and cheese, 187400 pounds.

TOWN OFFICERS

<i>Clerk and Treasurer</i>	Henry L. Murray
<i>Moderator</i>	Henry Carse
<i>Selectmen:</i>	
Robert Ballard	Term Expires 1957
Francis H. Lavigne	Term Expires 1958

SCHOOL DIRECTOR'S REPORT

The past year of 1956 has been a very busy time for all people connected with the operation of our school system. The teachers have and still are working under very crowded conditions. Not only inside the building, but due to the construction, much of the play area has been out of use. The construction of the new school addition hasn't advanced as fast as we had hoped for, but due to a steel strike and long delivery dates on necessary materials the job was delayed several weeks. We hope to occupy the building in a few weeks.

It is difficult to know exactly what the final cost of the entire project will be at this time, but we have checked as near as we could, and do not expect the deficit to exceed \$5000.00. This is accounted for by furnishings and some extras which were not in the contract price of the building.

Our school bus problem is becoming great and we have asked for bids on a new 60 passenger bus to replace the present 44 passenger Ford bus. We do not propose to buy a new bus without first finding out how you the owners feel about it. Therefore Town Meeting Day, it will be presented to all the people for a decision.

The proposed budget for the next year 1957-58 is higher than it has ever been. This is accounted for by the necessity of increasing teacher's salaries, so we can obtain and retain good qualified teachers.

We are faced with the necessity of borrowing money to take care of several things as follows:

\$5000.00 deficit on the building fund to be financed over a 5 year period repaying \$1000.00 per year (10%). New school bus financed 5 years repaying \$1000.00 per year plus interest (11%).

\$10,000.00 to be borrowed on tax anticipation and repay \$5000.00 when taxes come in November. The above represents \$20,000.00 to be borrowed with the provision to repay \$7000.00 and the balance of \$13,000.00 to be financed for 4 remaining years by means of short term loans each year. The above money can be borrowed at a rate of interest lower than interest paid on a bond issue.

The above situation is one which we are not happy with, but it is a reality and one which should be faced realistically by each of us who pay taxes.

We wish to express our sincere appreciation to the Masons for the use of their dining hall facilities for the hot lunch program.

We recommend a tax of \$4.76 for current expenses.

Our teacher contracts amount to the following:

Grades 1 through 8, including music --	\$29415.00
Grades 9 through 12,	-- 16600.00
	<hr/>
	\$46015.00

Individual salaries are not put in this report because of personal request. However, anyone desiring to know may contact the school director's and this information will be given.

Maurice Goodrich
 Rolfe Chickering
 Henry Carse
 School Directors

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Ladies and Gentlemen:

The State Board of Education in its biennial report to the Legislature, breaks the problem of maintaining an adequate force into two segments - getting teachers and keeping teachers, saying, "one thing nearly everybody knows about good teachers is that there aren't enough of them. How to get - and keep - an adequate supply of qualified teachers is the major problem in education today." During the next few years while the shortage of teachers is acute, the teachers will demand two conditions before accepting a position, (1) that the salary be adequate and (2) that the environment be conducive to good learning.

When school opened in September the enrollment in your school was as follows: Grade I, 31; Grade II, 33; Grade III, 27; Grade IV, 33; Grade V, 23; Grade VI, 17; Grade VII, 19; Grade VIII, 24; Grade IX, 32; Grade X, 19; Grade XI, 11; Grade XII, 22. Total, 297. There are 29 tuition paying students attending high school this school year. For which the town will receive about \$7000.00 in tuition receipts, of this number 13 are freshman.

The cost per pupil in average daily attendance for the past school year was \$167.45 per elementary pupil and \$213.55 per high school student. This is a substantial decrease in the cost per pupil over the previous year. The state average for a high school pupil the same year for a school the size of Hinesburg was \$304.50. State Aid received in December for average daily attendance for the past school year was \$17,920.56.

The section of the Vermont Statutes No. 4401 was carried out as required, a duly qualified registered nurse who is a member of the Public Health Section of the State of Vermont, has performed this duty. She has also made it possible for these children to receive treatment or correction in cases where the parents were financially unable to provide for the cause. The Audio, part of the school health program has been postponed until a State Audiometer can be secured for hearing screening, this will be completed in the near future. Number of pupils vision screened by nurse, 175; defects 20; under treatment, 5; corrected by parents 6; free service 4; under observation 5. The past three years your teacher's have had the privilege of taking from the health material display table at their fall teachers meeting many health aids, such as books and posters for classroom reading and instruction. These various health aids were secured to assist in promoting a better school health program for the health educational welfare of your children.

The teaching on both the high school and elementary level has continued on the same high plain as the previous year. I trust we will be able to retain all our teachers for the school year 1957-1958. In order to do this we must pay salaries comparable to those received by teachers in the surrounding area.

It is regrettable that the new addition was not ready for occupancy early in this school year but we should be operating on a 8-4 plan when school opens next fall.

Our sincere appreciation is extended to the Hinesburg Masonic Lodge for the use of their kitchen and dining room so that the Hot Lunch Program could continue during the period of construction. This has been a direct benefit to the children of Hinesburg. The Parent

Teacher Association and their faithful workers are once more commended for their support of the hot lunches.

I would recommend: that we continue the same graded plan another year; that salaries of all teachers be increased and that the citizens visit the school, to look over the new plant, to see what is being taught and become better acquainted with the faculty.

To the many friends of the Hinesburg School who have given their sincere support and approval to our efforts to improve the educational welfare of all the children, the school board and superintendent extend their appreciation.

Respectfully submitted,

Ernest M. Coddington, Sr.
Superintendent of Schools

REPORT OF THE COMMITTEE TO STUDY POSSIBILITIES OF A UNION HIGH SCHOOL

Pursuant to a resolution adopted by the voters present at the annual town meeting of the Town of Hinesburg held in March, 1956 William C. Hill, Emma Mead, and Joseph O'Brien were appointed a committee of three to investigate the possibilities of a Union High School district with the neighboring towns. The first meeting was held with the members of the Town of Charlotte, and the Town of Shelburne. At this meeting it was determined to ask South Burlington, Williston, and St. George to join in a study. The committee from Hinesburg appointed William C. Hill as chairman of its delegation.

South Burlington and Williston joined the group and a steering committee was formed to act as a co-ordinating committee. It was decided to follow a publication of the Vermont State Department of Education entitled "A Guide To Citizens' Action for Public Schools." The committee was broken into three sub-committees: publicity, area survey, and educational survey. These committees completed their work and the next step was about to be taken which was the formation of additional committees known as curriculum, financial, legal matters, and transportation.

As a result of the various surveys, it was decided that the most logical grouping would be Shelburne, Charlotte, and Hinesburg. It was further decided that each of these three towns should request a grant of \$25.00 for operating expenses of the whole committee.

Respectfully submitted,

William C. Hill
Emma Mead
Joseph O'Brien

(HINESBURG)

YOUR PUBLIC HEALTH NURSING SERVICE

The following is a report of the public health nursing service in town for the year 1956 -

68 visits were made to mothers and babies, especially with mothers having their first baby, or any particular problem.

120 visits were made to the homes of preschool and school children to discuss health problems with the parents. The nurse works closely with the family physician, the school principal, and other Health and Social agencies in attempting to find a solution to these health problems as the need arises.

38 visits were made to children and adults in the nursing control of communicable diseases.

39 home visits were made to families for general health supervision.

A Medical Conference was held in June with Dr. Louis Wainer examining 37 infant and preschool children. The school children will be examined soon after the first of the year. On the whole the children appear to be in good health. The need for dental care can always be stressed especially in the three to six year group, and in the early teen age group.

9 children received Triple Antigen.

21 children received Boosters.

10 children were vaccinated against Smallpox, and five were re-vaccinated.

A large Polio Clinic was held in the summer and at the first of the school year.

170 children received their first dose of Salk Vaccine.

166 children received their second dose.

179 children received a third dose of 1 c.c.

16 children from the Pioneer Group received a Booster dose.

Chest X-ray Clinics held twice each month by appointment at the DeGoesbriand Memorial Hospital in Burlington, and once each month at Fanny Allen Hospital, in Winooski, were available to persons referred by their physicians.

Hinesburg is to be commended for the addition to the school, and I am sure this will be a great asset to the town.

The public health nurse for Hinesburg is Mrs. Florence Shea who has her office in Essex Junction, telephone 8-3320.

Respectfully submitted,

Hortense L. Harwood, R.N.

Public Health Nursing Supervisor

The services rendered by the Department's Public Health Nurse in your community are reviewed elsewhere in this town report.

Respectfully submitted,

Robert B. Aiken, M.D., MPH
Commissioner of Health

REPORT OF THE VERMONT DEPARTMENT OF HEALTH

Public health means organized community effort to prevent disease, prolong life and increase physical and emotional well-being. A team of public health people from the state Department of Health last year assisted your health officer, doctor and other local citizens in maintaining the health of Hinesburg. Here is an account of some health services requested or available from members of this team which includes a bacteriologist, chemist, dentist, engineer, health educator, public health nurse, nutritionist, physician, psychologist, sanitarian, social worker, and a statistician.

. Crippled Children's Clinics, attendance:	8
. Vital Registration consultation:	-
. Child Guidance Clinics: service rendered	
. Food and lodging establishments	
Consultations or inspections:	-
. Tumor Clinics, attendance:	-

Gertrude J. Russell, Treasurer.

REPORT OF HINESBURG FIRE DEPARTMENT

We answered twelve alarms for fire in town and one out of town during the year 1956.

We were very fortunate in not having any very bad fires during the year and I hope that 1957 will be the same.

During the year we added a Hydro-Vac booster to the brakes which gives us much better control of the truck.

There was a small deficit this year as we had 2% less on the grand list than we have had in previous years.

Respectfully submitted,

C. H. Labell, Chief

VERMONT DEPARTMENT OF SOCIAL WELFARE

MONTPELIER, VERMONT

This is our twenty-first annual report to the citizens of the Town of Hinesburg on State payments in your municipality of various types of assistance and welfare during 1956.

The total number of recipients in the State has remained reasonably stable for some years. The number aided in the Totally and Permanently Disabled program has continued to increase. Old Age Assistance and Blind Assistance caseloads have declined. The impact of the Social Security Insurance programs are a continuing factor in the reduction of caseloads as an increasing number of our people attain a fully insured status. The towns and cities participated financially in two of the programs as indicated below. Administrative expenses for the four types of Public Assistance have always been among the lowest in the nation.

Old Age Assistance	\$ 21,284.00
Aid to the Blind	
Aid to Dependent Children*	2,609.00
Aid to the Disabled	
Committed Children**	
Total	<hr/> \$23,893.00

W. Arthur Simpson,
Commissioner

*One-eight paid by the town or city unless family is non-settled.

**One-half paid by the town or city unless family is non-settled.
